

Introducing a new strategic partnership!

As you may have heard in a previous email announcement, EveryBusiness HR Essentials, Inc. (EBHR) and S. Benjamins & Company, Inc. (SBC) have partnered up to strategically deliver quality Human Resources services to our clients. Both EBHR and SBC focus on the "people side of business," each with our own focus and perspective when it comes to solving problems. The partnership is a natural fit as we bring together different pieces of the Human Resources spectrum. We believe this partnership will leverage the work we do and the services we offer.

Sherry Benjamins and Kate Kjeell, along with their professional talent acquisition team focus on finding the "perfect fit." SBC's area of expertise includes Talent Strategy and Search, Talent Pool Development, and Storytelling & Branding.

Has Intentional Growth, Succession, and Retention been discussed in your organization's meetings? If you want to focus on hiring and keeping the right employees, they should be. S. Benjamins & Company can be the firm to search for and find the candidates with the best skill, potential and cultural fit by using modern methods and technology. SBC promises accountability through process transparency, metrics, qualitative assessment and weekly updates.

EBHR specializes on a slightly different perspective of the "people business." Once you have the perfect employees in place, we focus on the Foundational Solutions, Ramping Up Growth, Outsourcing, Customized Training and 360-degree Feedback. Great employees along with the internal infrastructure to support them are the common denominators in thriving businesses.

We welcome the opportunity to speak with you about how EveryBusiness HR Essentials and S. Benjamins & Co. can work together to assist your organization with its HR challenges.
